Tom MacDonald, American Flags (feat. Adam Ca

My people of this country and we're under attack
They banning us, they cancel us for speaking the facts
If you man enough, come stand with us, take USA back
And every time we pull up all you're gonna see's
American flags
American flags
And every time we pull up all you're gonna see's
American flags

I ain't never gonna pretend that I give a damn Anybody who's offended come get it, we throwing hands Anybody not tryna make America great again You a pawn, you a clown, better know where I stand I'm a white boy with the middle fingers in the air dog (We don't give a what?) Hundred white boys gonna hold me down anywhere, dog (We think that you suck) My patriots the craziest They ain't afraid of breaking fists on faces if You really want a taste of this, no safety kit The same mistake and spray the clip I pray you miss 'Cause if you don't they gon' go wacko Automatic gun smoke like tobacco Never hit a lady but it's pretty hard to tell if you're a girl Or a they them theirs these that those I ain't never gonna take a knee for the anthem, smack 'em I don't give a damn, can't stand 'em Gang full of randoms, fan with a handgun Run up on your mansion, leave it all abandoned I was raised to be brave to the grave, United States We love the country that they been corrupting Go woke and go broker if you ain't awake

My people of this country and we're under attack
They banning us, they cancel us for speaking the facts
If you man enough, come stand with us, take USA back
And every time we pull up all you're gonna see's
American flags
American flags
And every time we pull up all you're gonna see's
American flags
And every time we pull up all you're gonna see's
American flags

Got the AK, AR, Draco Leave you stinking, break your ankles I'm not hearing what you saying Hit the pavement, now you seeing angels It get dangerous go against the patriots Go all the bangers Take a look inside my closet You gon' see way more than hangers Hammers like I do construction Ammo, I'ma shoot at something Why you think we own these guns So we can just go do some hunting? You must not play close attention Government, they want division Only treason if you lose I guarantee we come out winning Let my flag fly high like eagles I would die for all my people You can't change me with procedures I'm 'bout freedom, you 'bout evil

Leave you hanging from the ceiling Like chandeliers in cathedrals Never have the safety on And when we run out we just reload

My people of this country and we're under attack
They banning us, they cancel us for speaking the facts
If you man enough, come stand with us, take USA back
And every time we pull up all you're gonna see's
American flags
American flags
And every time we pull up all you're gonna see's
American flags

Every time we pull up you see stars, you see stripes You see flags on the cars and the trucks and the bikes Every time we pull up we go hard, we outside We got flags on our arms that are tatted there for life Every time we pull up we don't care if you mad We cherish this land and haters can't get buried in rags They set fire to old glory turning fabric to ash

But every time we pull up all you're gonna see's American flags American flags American flags And every time we pull up all you're gonna see's American flags
