

Tom McRae, I Don't Dream

Take off your dress
I'm watching you
Throw off your fear
Slip off your shoes

So I can dream of you
So I can dream of you
As I lay with you
And feel you shake
I know love can die
And memories fade

So let me dream of you
So let me dream of you
Let me live with this memory
So I can dream
So I can dream

I don't think of you
I don't dream
I don't see those airport eyes
Vanilla and green

And I don't dream of you
I don't dream of you
I only live with this memory
But I don't dream
I don't dream
I don't dream
I don't dream
