

Tom Odell, Enemy

There's a side to me
I never want the world to see
I know that if I let it free
They would probably judge me
Judge me

I lay in bed at night
Watch you as you try to break my mind

You used to be a friend to me
Now you're just my enemy
So fucking full of jealousy
Will you ever let me be happy?
Happy

There's a side to you
I kinda wish I never knew
It's good to know you got one too
All the shit you put me through, it ain't true
It ain't true

I lay in bed at night
Watch you as you try to break my mind

You used to be a friend to me
Now you're just my enemy
So fucking full of jealousy
Will you ever let me be happy?
Happy
Happy
