

Tom Petty And The Heartbreakers, Lonely Weekends

Well I make it alright
From monday morning 'til the friday night
But oh those lonely weekends

Well since you left me
Honey I've been as lonely as a man can be
But oh those lonely weekends

Well you said you'd be good to me
You said our love would never die
You said you'd be good to me
Whoa but darlin' you wouldn't even try

Well I make it alright
From monday morning 'til the friday night

But oh those lonely weekends

You said you'd be good to me
You said our love would never die
You said you'd be good to me
Whoa but darlin' you wouldn't even try

Well I make it alright
From monday morning 'til the friday night
But oh those lonely weekends
But oh those lonely weekends
I said oh those lonely weekends
I said oh those lonely weekends
I said oh those lonely weekends
