

Tom Petty And The Heartbreakers, Lsd Girl

I's in love with a girl on marijuana
She said if i'm not stoned I don't wanna
But she got so paranoid
Her place I would avoid
I's in love with a girl on marijuana
I's in love with a girl on cocaine
She had everything going but her brain
We'd talk endlessly for hours
But by morning I'd go sour
I's in love with a girl on cocaine
Through extacy, crystal meth and glue
Found no drug compares to you
With all these pills
And all this weed
I don't know just what I need
I's in love with a girl on l.s.d.
She'd see things i'd never see
She broadened her perspective
Then I got more selective
I's in love with a girl on l.s.d.
Through extacy, crystal meth and glue
Found no drug compares to you
With all these pills
And all this weed
I don't know what I need
I's in love with a girl who drank beer
Till bad breath and all she disappeared
She was blowing up real bad
But when she left I was still sad
I's in love with a girl who drank beer
I's in love with a girl on china white
We were married for a year one night
Her memory still lingers
Cause I burned all my fingers
I's in love with a girl on china white
I's in love with a girl who drank coffie
There was times when I couldn't keep her off me
That caffine got her going
But her ugly side was showing
I's in love with a girl who drank coffie
I's in love with a girl who was a dealer
I's afraid some body'd come and steal her
We never used to fight
But the phone rang day and night
I's in love with a girl who was a dealer
Sure as hell
She got popped by the big guys
