

Tom Petty And The Heartbreakers, On The Street

I saw you walking down the street with him
You know I almost could've died
I didn't know you had a second friend
I never thought you woulda' lied
I guess somebody else has knocked upon your door
See somebody else's socks lying on your floor
And I saw you on street with him
You know I almost coulda' died

I never said that I was all that choice
I never said I was a dream
I didn't think you'd pull that second voice
It seems a little too cheap
I see somebody else's smile cut across your face
I see somebody else has taken you some other place
Yeah I saw you on the street with him
You know I really coulda' died

I didn't know you had another man, I didn't know,
I thought I was in
I didn't know you had another plan, I didn't know
I thought I was in on the action
I thought I was ace in the hole
But I guess I was wrong

I see somebody else's smile cut across your face
I see somebody else has taken you some other place
Yeah I saw you on the street with him
You know I really coulda' died

I didn't know you had another man, I didn't know,
I thought I was in
I didn't know you had another plan, I didn't know
I thought I was in on the action
I thought I was ace in the hole
But I guess I was wrong
