

# Tom Petty, Change The Locks

(Lucinda Williams)

I changed the lock on my front door  
So you can't see me anymore  
And you can't come inside my house  
And you can't lie down on my couch  
I changed the lock on my front door

I changed the number on my phone  
So you can't call me up at home  
And you can't say those things to me  
That make me fall down on my knees  
I changed the number on my phone

Yes I changed the kind of car I drive  
So you can't see me when I go by  
And you can't chase me up the street  
And you can't knock me off of my feet  
I changed the kind of car I drive

I changed the kind of clothes I wear  
So you can't find me anywhere  
You can't spot me in a crowd  
And you can't call my name out loud  
I changed the kind of clothes I wear

I changed the tracks underneath the train  
So you can't find me ever again  
And you can't trace my path  
And you can't hear me laugh  
And honey, I'm laughing all the time!

I changed the name of this town  
So you can't follow me down  
And you can't touch me like before  
And you can't make me want you more  
I changed the name of this town

I changed the lock on my front door  
I changed the number on my phone  
I changed the kind of car I drive  
I changed the kind of clothes I wear  
I changed the tracks underneath the train  
I changed the name of this town  
I changed the name of this town  
I changed the name of this town
