Tom Petty, Fooled Again (I Don't Like It)

(Tom Petty)

Strange voice on the telephone Tellin' me I better leave you 'lone Why don't somebody say what's going on Uh oh I think I been through this before

Looks like I'm the fool again Looks like I'm the fool again I don't like it I don't like it

You never said you had no number two I need to know about it if you do If two is one I might as well be three It's good to see you think so much of me

Looks like I'm the fool again Looks like I'm the fool again I don't like it I don't like it Look out!

You never said you had no number two I need to know about it if you do If two is one I might as well be three It's good to see you think so much of me

Looks like I'm the fool again Looks like I'm the fool again I don't like it I don't like it Look out!

I don't like it I don't like it I don't like it
