

Tom Petty & The Heartbreakers, California

California's been good to me,
hope it don't fall into the sea,
sometimes you got to trust yourself,
it ain't like anywhere else,
it ain't like anywhere else,

It's time to roll,
I'm all done,
It's time we better, hit the road.
I got work, later on,
It's time we better, hit the road.

California's been good to me,
I hope it don't fall into the sea,
sometimes you've got to save yourself,
it ain't like anywhere else,
ain't like, anywhere else.

Sun down, red skies,
nobody's, been around,
sun down, blue lies,
I kinda like this,
party town.

California has treated me good, (california's been good to me)
I pray to god that the hills don't flood, (gonna fall into the sea)
Sometimes you've got to trust yourself, (*repeat this line*)
It ain't like anywhere else, (sometimes you've got to save yourself)
It ain't like anywhere else, (it ain't like anywhere else)
It ain't like anywhere else.
