

Tom Quincy, Pick up the pieces

I was adrift on an ocean all alone
You came and rescued me
When I was far from home
Rush of love around my heart
Just as I fell apart
Nobodys ever cared as much for me (as much for me)
Nobodys touched my heart and healed my pain
Youve picked up the pieces
And put me back together again
Careful, were fragile and easily we break
In your arms Im certain
Its all the love will make
Rush of love around my heart
Just as you take my hand
Nobodys ever cared as much for me (as much for me)
Nobodys touched my heart and healed my pain
Youve picked up the pieces
And put me back together
Ill write your name in
Stars across the sky (stars across the sky)
Well drift away in to each others eyes
Hey ya
Nobodys ever cared as much for me
Nobodys touched my heart and healed my pain
Youve picked up the pieces
And put me back together again
Nobodys ever cared as much for me (as much for me)
Nobodys touched my heart and healed my pain
Youve picked up the pieces
And put me back together again, ye
(Nobodys ever cared as much for me (as much for me)
Nobodys touched my heart and healed my pain
Youve picked up the pieces)
Youve put me back together again
