

# Tom T. Hall, Country Is

Country is sittin' on the back porch listen to the whippoorwills late in the day  
Country is mindin' your business helpin' a stranger if he comes your way  
Country is livin' in the city knowin' your people knowin' your kind  
Country is what you make it country is all in your mind  
( guitar )

Country is workin' for a living thinkin' your own thoughts lovin' your town  
Country is teachin' your children find out what's right and stand your ground  
Country is a havin' the good times listen to the music singing your part  
Country is walkin' in the moonlight country is all in your heart
