

Tom T. Hall, One More Song For Jesus

We've traveled this world over in our day and in our time
We've heard some songs that made no sense and some that did not rhyme
We may never sing another song there ain't no way to know
But let's have one more song for Jesus 'fore we go
Oh we may not live the letter of the law and live that truth
Judged and criticized for almost everything we do
But they cannot stop our singing though they're holier than we
Let's have one more song for Jesus if you please

(ac.guitar)

They say they're gonna burn us in a not too distant day
I don't think we should buy that cause it just ain't Jesus' way
Now they say he's mean and vicious and there's nothing that he won't do
They must know a different Jesus than we do
Oh we may not live the letter...

(ac.guitar)

Some atheist may tell us he was just another man
Some say that he's a superstar and they're his biggest fans
He means so much to so many that I think you will agree
We oughta have one more song for Jesus if you please
Oh we may not live the letter of the law and be that true
Judged and criticized for almost everything we do
But they cannot stop our singing though they're holier than we
So let's have one more song for Jesus if you please
We oughta have one more song for Jesus if you please
Let's have one more song for Jesus on our knees
Let's have one more song for Jesus if you please
