

Tom T. Hall, There Is A Miracle In You

There is a miracle in you in what you are and what you do
If anything at all in life is true there is a miracle in you
You can be anything a president of course
A nurse or a fireman or someone important on a horse
There's adventure and a future bright and blue there is a miracle in you
(guitar + strings)
There is a magic in your smile you'll spend a season as a child
Bless you go and grow and see and do there is a miracle in you
You can do anything you want from here to there
Fly on a spaceship or maybe you can wrestle with a bear
You're what the world is coming to there is a miracle in you
