

Tom T. Hall, Your Birthday Is

Your birthday is special to me I'm glad it's your birthday today
It's been a good year now your birthday is here and here's what I wanted to say

I know your birthday is special to you I want you to know that I'm lovin' it too
You're bigger and better and taller and smart and it makes me feel good in my heart
Your birthday makes everyone glad how many birthdays have you had
Well you ought to say wow cause you're having one now
And you should thank your mom and your dad
Have you ever noticed how quickly you grow
You once were a small tender baby you know
You're clever and good and you're growing each week
Someday you'll be as big as you please
(strings)
Your birthday is special to me...
