

Tom Waits, Puttin' On The Dog

You gotta stomp
whistle and scream
You gotta wake right up in your dreams
You gotta jump, whittle and drive
keep that feeling alive
You gotta kick holler and shout
I'm gonna tell you what it's all about

You gotta tell me that
you love me, tell me
that you're mine
cause we're putting on the
dog tonight

Puttin on the dog tonight
Puttin on the dog tonight
Puttin on the dog tonight

Flip, follow and fly
Just do it now and
don't ask why
You gotta strut, wiggle and slide
Let everyone know that you're alive
You gotta crank, gallop and twist
Do it once and you'll never resist

Tell me that ou love me
Tell me that you're mine
cause we're puttin on the
dog tonight
Puttin on the dog tonight
Puttin on the dog tonight

Goin to a suky jump
It's rainin... it pours
In a big ol' Lincoln with
suicide doors
Tip that bottle from the
brim to the dregs
You ain't dancing till you
cross your legs

Puttin on the dog tonight
Puttin on the dog tonight
Puttin on the dog tonight
