

Tom Walker, Serotonin

My father told me can't wake up happy everyday
Cant have the sun without the rain
Cant have the moments when you're truly on top of the world
Without the moments when you're down in the dirt
It's something they don't really teach you in school
About anxiety, depression and the weight of the world
We're all looking for some gratification
A little love a little validation

That's why I'm glad I found someone like you
To see the sadness and the truth
I'm glad I found someone like you
Yeah, yeah, yeah

I feel your touch deeper than my skin
Every chemical rushing in
Now I've found your love
I'm coming up again
Like Serotonin Serotonin
Like a pill takes off the edge
Like a smokers last cigarette
Now I've found your love, I'm coming up again like Serotonin Serotonin

My father told me that's the thing about life
It only matters who you have by your side
Not the money or the cars that your driving
That's some temporary high shit
Always chasing a climax

That's why I'm glad I found someone like you
Who's seen the sadness and the truth
I'm glad I found someone like you
Yeah, yeah, yeah

I feel your touch deeper than my skin
Every chemical rushing in
Now I found your love
I'm coming up again
Like Serotonin Serotonin
Like a pill takes off the edge
Like a smokers last cigarette
Now I've found your love, I'm coming up again like Serotonin Serotonin

I feel your touch deeper than my skin
Every chemical rushing in
Now I found your love
I'm coming up again
Like Serotonin Serotonin
Like a pill takes off the edge
Like a smokers last cigarette
Now I've found your love, I'm coming up again like Serotonin Serotonin

Like Serotonin Serotonin
Serotonin Serotonin
