

Tom Walker, Wait for You

I am just prayin' you can figure this out
And when there's nothing left
You know i'll still be around
And if all of this is dragging you under
I'll remind you of the world and its Wonder
I am just prayin' we can figure this out

These better dreams
They seem to last
And even through it's in the past

I know ut's hard for you to talk
Bail your soul and open up
I will wait for you
I will wait for you
Can;t pretend to understand
I'll be here to hold your hand
I will wait for you
I will wait for you

I can't imagine everything you've been through
You've taken the bad Times and meda 'em good
Cause when eyerything is dragging me under
You'll remind me of the world and its Wonder
And i am just glad that we have figure this out

These better dreams
They seem to last
And even through it's in the past

I know ut's hard for you to talk
Bail your soul and open up
I will wait for you
I will wait for you
Can;t pretend to understand
I'll be here to hold your hand
I will wait for you
I will wait for you
