

Tom Wehrle, There's Something More

Look outside before your eyes
Take the time and realize
That there's something more

Sit back, hold tight, enjoy your ride
Soon you'll find that I was right
That there's something more

I tried all night
To tell you I know what you're searching for
Cause Jesus died to save your life
Know there's something more
He's what you're looking for

There's more to us than turning dust
These hills and plains, they all explain
That there's something more

I tried all night
To tell you I know what you're searching for
Cause Jesus died to save your life
Know there's something more
He's what you're looking for

I tried all night
To tell you I know what you're searching for
You think you know
But what you've been told is sadly so wrong
Cause Jesus died to save your life
Know there's something more
He's what you're looking for

He'll wipe away your hidden pain
You'll never ever be the same
When you believe you'll see there's something more
