Tomahawk, Cul De Sac

The world is growin' old And preparin' for sleep But you and me are just not gettin' outta bed Wakin' up Sunbathing on the shores of a nightmare I wish you were here 'Cause they say We say And we say Eternity is all used up And our hell has frozen over But it ain't that cold It's warm enough Sunbathing on the shores of a nightmare I wish you were here 'Cause they say We say And we say That we're saved We're saved That we're saved
