

# Tomahawk, Rape This Day

You're the only one  
I've ever told  
That I will rape this day  
Got a barking dog  
And a smile to tell  
And I will hate this day  
Sporting the name brands  
Clothes make the man  
And I will rape this day  
Guess a heart won't break  
That ain't pumpin' Kool-Aid

I've got a fighting chance  
You know you promised me the last dance  
A micronaught in time  
This fat 24 is all mine  
Nothing but moans and blood  
And so my blood counts my loss  
You cannot eat just one  
A diaphragm revelation

Just want to get some disease  
And get your stampin' heart the hell outta here  
I'm gonna rape this day  
I'm gonna rape this day  
I'm gonna rape this day

This is the real mouth  
Sew it up and fly south  
And I will rape this day  
I'll blow with you on the ground  
Or leave it til the leaves turn bround

And I will pinch and tear  
I'll pull and kick you right there  
I'll prod and jerk and stretch  
Into a pretty bruise, a cat scratch  
Put a rake on your neck  
But who would cry or complain  
Compared to the pain of your sorry white vein

I'm gonna rape this day
