

# Tommy Page, Close Our Eyes (Duet With Tiffany)

## VERSE 1

Male: I picked a rose among these ancient walls  
A garden made for love  
but nothing grows at all

I heard your laughter and I almost knew  
That we'd share our life together

Female: And still surrounded by this fortress strong  
Kept from your loving arms too long

## CHORUS

Both: If we just close our eyes and begin a new day  
We could turn back the time to a world far away  
Where our hearts beat as one through the passing of ages

Male: Oh, we could turn back time start a brand new day

Female: If we just close our eyes

## VERSE 2

Male: I saw you walking with the sacred fire  
A girl her eyes so wild with anger and confusion  
The only spark of life to grace this land

Both: We shared this hope eternal (Male whisper: eternal)

Female: And now it seems as though you've found your place

(Male: found your place)

Lost my loving embrace

## CHORUS

## BRIDGE

Male: I'll give more than forever

Female: Our love will carry us away

Both: Together we'll fly if we just close our eyes
