

Tommy Page, I Think I'm In Love

By t. page

There's the winter moon
Shining through my window
But I'm not asleep
Because I miss you so
If you could have known
The way I felt today
And this feeling's real
Oh why'd you go away

Chorus:

Well I think I'm in love
You're so far away

It's too late to say
I'm in love
Well I think I'm in love

If I could have your heart
For just one more day
I would tell you dear
That I'd wish you'd stay
Now you're gone for good
And I can't take the pain
Oh I'll be here for you
I wish you'd feel the same

Chorus
