

# Tommy Page, I Think I'm In Love

By t. page

There's the winter moon  
Shining through my window  
But I'm not asleep  
Because I miss you so  
If you could have known  
The way I felt today  
And this feeling's real  
Oh why'd you go away

Chorus:

Well I think I'm in love  
You're so far away

It's too late to say  
I'm in love  
Well I think I'm in love

If I could have your heart  
For just one more day  
I would tell you dear  
That I'd wish you'd stay  
Now you're gone for good  
And I can't take the pain  
Oh I'll be here for you  
I wish you'd feel the same

Chorus
