

# Tommy Page, Love Takes Over

By t. page/s. peiken

I wanted you from the start  
I never told you anything different  
You tried to warn my heart  
But I couldn't listen to the words  
You said you don't feel the same  
Well every time I hear your name

Chorus:

Love takes over, over, over, over  
And I lose control  
Love takes over, over, over, over  
My heart and soul

Every time I see your face  
I tell myself I've got it together  
Still I watch every move you make  
Guess I'm not getting any better  
Cause I can't forget you don't feel the same  
Well, every time I hear your name

Chorus:

If only, you'd give me  
One chance to hold you  
I'd do it now, I'd show you how, how

Chorus
