

Tommy Page, Making My Move

By t. page/ l. russell brown

I caught you looking at me
As I was looking at you
It was so easy to see
What I was going to do
Too late to turn back now
I'm gonna get to you somehow

Chorus:

I'm making my move
Moving closer to you
Making my move
This time I follow through
I said to myself that I've got to prove

I'm not afraid of making my move

I feel your heart
And it's beating just as fast as mine
We know it won't be long
It's just a matter of time
Some things were meant to be
And your love is motivating me

Something inside of me
Something subconsciously
Passion is taking me
Somehow it's making me
Move in closer to you

Chorus
