

# Tommy Page, Minetta Lane

By t. page/ l. russell brown

In the middle of the village  
On a cold winter night  
The only street around  
With no one in sight  
I kissed you on your face  
A tear drop came  
There on minetta lane

I remember it like it was only yesterday  
It's so strange how time slips away  
Been so long since we felt the flame  
There on minetta lane

Whatever happened to love sweet love  
Did it fade away and die  
My heart still cries for you, longs for you  
This song's for you  
Wherever you are tonight

Repeat:

In the middle of the village  
On a cold winter night  
Only street around  
No one in sight  
I'll never walk that street  
'cause it's not the same  
Without you on minetta lane
