

Tommy Page, Shower Me With Your Love

My heart is filled with so much love
and i need someone i can call my own
to fall in love, that's worths everyone's dream of
i know this feelin oh so strong
life is too short tolive alone without someone
to call my own, i will care for you, you will care for me
our love will live forever

chorus:
shower me with your love
shower me with the love that i long for
shower me with your love
shower me with the love i've been waiting for

I close my eyes and pray all my wishes come true
everynight i go to sleep, until you're mine i wait for you
endlessly, can't you see. Fairy tales they do, sometimes come true
if you believe it, could happen to you
like the stars that shine way up in the sky
our love will last forever

Repeat chorus:
like the stars that shine way up in the the sky
our love will last forever x2

repeat chorus and fade out.
