

# TONES AND I, THE KIDS ARE COMING

no one wants to listen to the kids these days  
the fib these days  
they say that we're all the same  
but they're the ones to blame

speaking of the young as if we killed someone  
but we don't need your guns  
we're all too busy on the run  
tryna be someone

the kids are coming  
the kids are coming  
the kids are coming  
the kids are coming

the kids are coming  
the kids are coming  
the kids are coming  
the kids are coming  
for you

no one seems to understand the kids these days  
and why we live this way  
we've got to clean up the messes you've made  
still you don't wanna change

you create the law but can't control our thoughts  
and no we won't be bought  
we don't just protest for the fun  
we're here to get it done

the kids are coming  
the kids are coming  
the kids are coming  
the kids are coming

the kids are coming  
the kids are coming  
the kids are coming  
the kids are coming  
for you

now you're gone and done it and  
we lock you in the basement  
marching through the streets is not the  
only way to change things  
now you're gone and done it and  
we lock you in the basement  
marching through the streets is not the  
only way to change things

the kids are coming  
the kids are coming  
the kids are coming  
the kids are coming  
for you
