

# TONES AND I, Wonderful

You've been on the ledge, but no one knows you're lost  
Tryna tell a friend, but something makes you stop  
Even in your head, it's hard to have a thought, oh  
And all the things that used to make you smile have gone, oh

I'll stay with you, stay by your side  
Together we will hold on, hold on for the ride  
We don't need to speak, just look up at the lights  
With me now

I think you're wonderful  
If you could only see you through my eyes  
And know that I will stay with you, stay with you, oh  
Stay with you, won't let you go  
I think you're wonderful, so wonderful tonight

When you've been tryna hold the tears back from your eyes  
And every day just feels like it gets harder each time

I'll stay with you, stay by your side  
Together we will hold on, hold on for the ride  
We don't need to speak, just look up at the lights  
With me now

I think you're wonderful  
If you could only see you through my eyes (My eyes)  
And know that I will stay with you, stay with you, oh  
Stay with you, won't let you go  
I think you're wonderful, so wonderful tonight

Oh-oh  
Oh-oh  
Oh-oh  
Oh-oh

I'll stay with you, stay by your side  
Together we will hold on, hold on for the ride  
We don't need to speak, just look up at the lights  
With me now

I think you're wonderful  
If you could only see you through my eyes (My eyes)  
And know that I will stay with you, stay with you, oh  
Stay with you, won't let you go  
I think you're wonderful, so wonderful tonight
