

# Tones On Tail, Go!

Living it up. It's a big kick  
It's good for you  
Watch the big freeze slip  
Crack the jackpot, get out of control  
If you put yourself down  
You'll never win, get out of that hole  
Keep your mind open, your head up  
You'll never, ever get old

Go!

Your whole world could change  
If only you just broke through  
'cause your fears are doing

nothing for you  
Keep your head up, your mind open  
You'll always come through  
'cause living it up, it's a big deal  
It's good for you

Swap your dull grey thoughts  
For fierce demands you can stand up to  
Don't put yourself down, you'll never win  
So let's all smash through  
Through the fear of being real  
Through the fear of being really you  
'cause living it up, it's a big deal  
It's good for you
