

# Toni Braxton, Fairy Tale

And if I was wrong, I know I don't deserve this  
Don't stay too long,  
I need to hear those words you use to tell me  
From way back when we were just friends  
Before this love affair began

Tell me how I love you wins  
Or how a broken heart can mend  
Just tell me this is not the end  
Please tell me now  
How the fairy tale begins  
Or how it was supposed to end  
Please tell me that part again

[Ad libs]

Now tell me what's wrong  
I never meant to hurt you, no baby, ooh  
Was it the home, the car,  
Or darling all those things we thought we needed  
Tell me even if it ain't true  
But baby please don't say we're through

Tell me how I love you wins  
Or how a broken heart can mend  
Just tell me this is not the end  
Please tell me now  
How the fairy tale begins  
Or how it was supposed to end  
Please tell me that part again

[Ad libs]

I wanna know that  
Feelin' that's from way back  
A time when it was true that  
Love was sweet and innocent  
When you and I could still be friends  
Make all the wrong be right again  
Where true love never has to end  
[Ad libs]

Tell me how I love you wins  
Or how a broken heart can mend  
Just tell me this is not the end  
Please tell me now  
How the fairy tale begins  
Or how it was supposed to end  
Please tell me that part again  
[Ad lib]
