

Toni Cornell, Sunset of Your Love

Sun kissed memories
Yellow like a submarine
Wrap me in a summer day
You there light
Anything to see you smile
How you're gonna always stay

It hits every time
I don't know how to catch my breath
The day turns into night
and I don't wanna lose you yet

In the sunset of your love
Peach and violet from above
All I know
Is I'm not ready
Til you find me
I'll be waiting
In the sunset
Of your love

Never staying in one place
Easier to never face
All the ways I fall apart
Haven't seen the rain in years
When it falls I'm left in tears
I can't do that to my heart

It hits every time
I don't know how to catch my breath
The day turns into night
and I don't wanna lose you yet

In the sunset of your love
Peach and violet from above
All I know
Is I'm not ready
Til you find me
I'll be waiting
In the sunset
Of your love
