

# Tonic, Count On Me (Somebody)

I need to be around you  
I want to fall into your eyes  
I love to feel you close to me  
But there's no peace of mind  
I live to hear you laughing  
I long to feel your hands fall down  
Along the side of me  
A change of life is hard to find  
There's no peace of mind

if you ever need somebody  
If you ever need somebody to love you  
If you ever need somebody  
You can count on me

So kiss me for believing  
Love me now for always knowing  
When to let you go  
A change of life is hard to find  
There's no peace of mind

If you ever need somebody  
If you ever need somebody to love you  
If you ever need somebody  
You can count on me

There's no peace of mind  
Change is hard to find  
Count on me

If you ever need, if you ever need  
If you ever need, if you ever need  
If you ever need somebody you can count on me

If you ever need somebody  
If you ever need somebody to love you  
If you ever need somebody  
You can count on me
