

Tonic, Open Up Your Eyes

Choosing stones...
Big enough to drag me down
Where I am...
People's voice's make hollow sounds
Just be quiet...
They'll go away
Open up your eyes...
Don't let your mind tell the story here
Open up your eyes...
Just let me go
It's so safe...
It's so safe floating in the glass
While above...
While above all your troubles pass
Just be quiet...
They'll go away
Open up your eyes...
Don't let your mind tell the story here
Open up your eyes...
Just let me...
Open up your eyes...
Don't let your mind tell the story here
Open up your eyes...
Just let me go, let me go, let me go
Open up your eyes...
Just let me go...
