

Tony Christie, Almost In Love

With your golden hair
eyes ah blue
i couldn't sleep
thinking of you

I was
almost in love
almost in love

We could shoot
the moon
like the stars
you were Venus
i was Mars

I was
almost in love
almost in love

It not to late
to start again
maybe you'll feel
the same

Can't explain
I just want you
and only you

Noone else
left to find
you make my
heart beat
over time

I was
almost in love

almost in love

with you.....

It not to late
to start again
maybe you'll feel
the same

Can't explain
i just want you
and only you

Noone else
left to find
you make my
heart beat
over time

I was
almost in love
almost in love

I was
almost in love
almost in love

almost in love
I was
almost in love
almost in love

with you.....
