

Tony Christie, Dont Go Down To Reno

I wanna talk to you of all the wondrous things
of all the magic days our love is bringing.
I wanna hold you close and never let you go
and you will hear the words my heart is singing.
We'll make our secret dreams become reality
and let our love run wild and free.
Heaven on earth will surround you and me.
Come with me to paradise my love
paradise my love
ev'ry day we'll see a golden morning.
Come with me to paradise my love
paradise my love
we can flout a way among the stars.
Together we can take a magic carpetride
and see a silver river gently flowing.
Then may be we will stop and walk through wonderland
and see exotic flowers softly growing.
Oh
we can sail away across a moonlight sea
and find a place for you and me.
heaven on earth that's the way it will be.
Come with me ...
We'll feel the sunshine and just ignore time
and let our love grow inside.
We'll watch the moonglow wherever we go.
I'll always be right on your side.
Come with me ...
Come with me ...
