

# Tony Joe White, Always The Song

I remember the first time we touched we almost caught fire  
Right there in the middle of night we almost caught fire  
Burning each other down and the feeling went on and on  
And somewhere in the background always the song

It's always there between us so strong it never breaks  
Pulling us together sometimes when there's no other way  
I wonder if it's more than fire that's kept us together so long  
All the way down through our lives always the song

Baby you're good for me and that's all I've got to say  
And all the times we've been through you've been a woman all the way

You know when I've been wounded and I need a place to hide  
You see me walking straight up but you know I'm bending inside  
You try to help me handle the pain when someone I love has gone  
And somewhere way out in the rain always the song
