

# Tony Joe White, I Want To Be With You

You light up a room the moment you walk in  
You could break a heart without even knowin'&#039;  
Just in the way you smile the way you move  
You say hello I want to be with you

And when I feel your warm embrace you make it seem like yesterday  
Touchin'&#039; in that special way lovers do  
Just when I was gettin'&#039; use to goodbye you walk right back into my life  
Somehow you make it feel so right I want to be with you

Remember when we danced alone in the dark  
Just two people moving to the rhythm of their hearts  
Making love at dawn and on into the afternoon  
Nothing&#039;s changed I want to be with you

And you say it can be just like before maybe even something more  
I know you need the door left open wide  
So there will be no promises made we won't talk about goodbye  
For now we've got tonight and I want to be with you
