

Tony Oller, Here I go

I'm here checkin' it out
Guess I might as well (I might as well)
Gonna make the most of this
Before I hear the bell
Always been the one in the spotlight
Rockin out and havin a good time
Now my worlds turned upside down OH!
Here I go, here I go
Gonna work it out somehow
I'm walkin tall but I hope you know
Got both feet on the ground
It's okay, I know that I will find a way
To make this world my own OH!
So here I go (here I go, here I go)
Here I go (here I go, here I go)
See my face in a magazine
Read the stories that they tell
My picture on your wall
My ringtone on your cell (ringtone on your cell)
Got used to living the good-life
First class with everything just right
Now my worlds turned upside down OH!
Here I go, here I go
Gonna work it out somehow
I'm walkin tall but I hope you know
Got both feet on the ground
It's okay, I know that I will find a way
To make this world my own
So here I go
