

Tony Oller, Life goes on

Oh, Life goes on
Stop and hear me now
I don't know what to say
Or what to do anyway
And I don't care anymore
No, I don't care anymore
You say you know me
And every single thing about me
But you don't
Because you said life goes on
And this is the end (x2)
Sit at home
Wondering why
We broke up
That one night
But I know you'll take me back
And I'll say this to you
In fact
Yes, I say this to you again
You say you know me
And every single thing about me
But you don't
Because you said life goes on
And this is the end (x2)
I'm over this
And I'm over you
You've hurt me so bad
And you left me too soon
But I'll say this too you again
This is the end
This is the end, Oh (x2)
You say you know me
And every single thing about me
But you don't
Because you said life goes on
And this is the end (x4)
Life Goes On
