

Tony Rich Project, Because There's U

Talk:
This place feels...
familiar...
Only one thing..

I'm standing in a similar place...
But this time it's different...
Because there's you... (echoes)

Only to make clear...
The sky in its deepest blue...
A formed image of a thought called you...

Standing in a similar place...
But this time it's different...
Because there's you... (echoes)

This truth...
A most pure feeling...

Standing next to you in this space...
So fine...
What a beautiful time...

Standing in a similar place
But this time it's different...
Because there's you

I'm standing in a similar place...
But this time it's different...
Because there's you... (echoes)
