

# Tony Rich Project, Billy Goat

Billy Goat moved over to the east coast  
He never knew his name  
But he'd always get what he want  
Billy even had a girl  
But he called her friend  
Didn't like to claim her name  
He likes to play the game

Chorus

You gotta be down, down  
Down for the right thing  
You can't mess around, owww  
Be close to the righteous

Billy told Betty that he was leavin' town  
Start gettin' worried  
>From the word around  
Billy got babies over here and over there  
He's starting to fade away  
'Cause he's so damn scared

Chorus

Billy don't tell me that you're feelin' bad  
The only way you can do that  
Is if you're feelin' sad  
Well, well, well  
I always heard that you were a strong man  
And the word around is that that man  
Won't hang his head

Chorus
