

# Tony Santos, Why When How

You're still captivating even though it's been so long  
You use to love me tell me baby what went wrong  
Now you march to a different song  
I try to understand that we needed space  
And every way I turn I see your face  
I've been waiting for you to come home  
I don't want to be alone

Why did you take away your love  
When did you think to just give up  
How am I supposed to carry on without you  
You are my life

I have changed girl since I last saw you  
When you left me you don't know what you put me through  
My heart still racing just being next to you  
I can't escape the magic in your eyes  
Is there a way to make you realize  
There's no one more special to my heart  
But you want us to be apart  
I still love you

Repeat Chorus

You are my world you mean everything to me  
You are the air I breathe, the song I sing  
You were my Queen and I was your King  
But if we try and work it out  
We'll show the world what loves about  
Baby come home  
Cos I can't take no more of this loneliness and emptiness

Repeat Chorus 2

I still love you.
