

# Tony Vincent, Shake The Money Tree

Said that he would answer every need  
said that we could trust him and believe  
if your God hasn't found an answer yet  
you better find a way to hedge your bets  
got to make yourself a name  
cross your fingers for that lucky break

Too insecure to live by faith  
we're always looking for some other way

Shake, shake, shake the money tree  
shake, shake, shake the money tree  
trusting in our wealth  
trusting in ourselves  
shake, shake, shake the money tree

Contentment is a secret we can learn  
regardless of the money that we earn  
doesn't come by rising in the world  
comes by taking Jesus at his word  
he has promised to provide  
everything we need for life  
now we're caught inside a living lie

(bridge)

(chorus)

You gotta-gotta raise that sex appeal  
you gotta-gotta work that business deal  
you got to change what you cannot steal  
deep inside you're scrounging for a meal  
made a perfect idol of your wealth  
everyman and woman for themselves  
you burn your conscience on the corner shelf  
you're dying while you're trusting in yourself

From the album... 'Tony Vincent'.
