Too Bad Eugene, You're No Fun

you're not that smart
and you're not that pretty, either
and you're not that fun to be around
you got no style
and you never have an opinion
at least not one worth making the sound
but wherever I may go, you tag along
And think you make my whole life go all wrong
so I wrote for you this stupid, boring song
you're no fun, no, you're not any fun
