

# Too Sorry For Apologies, You're Nothing Short O

## Verse 1

Your tears are bleeding down  
Past your cheekbone to the ground  
And my words aren't enough  
You've felt this hurt before  
You find your comfort past the door  
And there's no running this time

## Chorus

And all I want for you is all that's everything,  
You're everything to me

## Verse 2

The cold October moon  
It makes me think of you  
But my thoughts fall short  
The stars all shed a tear  
For every second you're not here  
And I can't breathe without you
