

Tool, Wings for Marie (Part 1)

You...
You believed ...
You believed in moments [none could see / God conceived]
You believed in me
A passionate spirit
Uncompromised
Boundless and open [??] A light in your eyes that
[?? / Could end all lies]
[Vacant / Broken], broken
Fell at the hands of this moment so that I wouldn't see
It was you who prayed for me so
What have I done
To be a son to an angel?
What have I done
To be worthy?
Daylight dims leaving cold fluorescence
Difficult to see you in this light
Please forgive this selfish question, but
What am I to say to all these ghouls tonight
She never told a lie,
... well might have told a lie,
But never lived one.
Didn't have a life
Didn't have a life
But surely saved one
So I'm alright
Now it's time for us to let you go.
