## Tool, Wings for Marie (Part 1)

You...

You believed ...

You believed in moments [none could see / God conceived]

You believed in me

A passionate spirit

Uncompromised

Boundless and open [??] A light in your eyes that

[?? / Could end all lies]

[Vacant / Broken], broken

Fell at the hands of this moment so that I wouldn't see

It was you who prayed for me so

What have I done

To be a son to an angel?

What have I done

To be worthy?

Daylight dims leaving cold fluorescence

Difficult to see you in this light

Please forgive this selfish question, but

What am I to say to all these ghouls tonight

She never told a lie,

... well might have told a lie,

But never lived one.

Didn't have a life

Didn't have a life

But surely saved one

So I'm alright

Now it's time for us to let you go.
