

Toploader, Just Hold On

Walking on high hopes
Living on tight ropes
Running with your feet off the ground
It used to be magic
But now it's only getting you down

I miss the sunshine
That was a good friend of mine
Can't stand it as my life goes by
Waiting for something
But nothing's gonna happen tonight

Walking down a one-way road
but you still don't know which way to turn

Just hold on
Just hold on
When you're feeling like you can't go on
Just hold on
Just hold on

Riding life's rollercoaster
You're making the most of
What you can and what you can't have
Hoping for someone
To show you to another pain

Walking down a one-way road
but you still don't know which way to turn

Just hold on
Just hold on
When you're feeling like you can't go on
Just hold on
Just hold on

When you think you can't make it
Just hold on
Just hold on
Just hold on
Just hold on

When you feeling like you can't go on
Just hold on
