Toploader, Just Hold On

Walking on high hopes
Living on tight ropes
Running with your feet off the ground
It used to be magic
But now it's only getting you down

I miss the sunshine
That was a good friend of mine
Can't stand it as my life goes by
Waiting for something
But nothing's gonna happen tonight

Walking down a one-way road but you still don't know which way to turn

Just hold on Just hold on When you're feeling like you can't go on Just hold on Just hold on

Riding life's rollercoaster You're making the most of What you can and what you can't have Hoping for someone To show you to another pain

Walking down a one-way road but you still don't know which way to turn

Just hold on Just hold on When you're feeling like you can't go on Just hold on Just hold on

When you think you can't make it Just hold on Just hold on Just hold on Just hold on

When you feeling like you can't go on Just hold on
